Why online handouts

Education and training via the internet are growing rapidly. Easy accessibility from home or school makes Internet handouts a viable alternative to hardcopy handouts. These PDF handouts can be accessed any time and from anywhere using any type of Internet connection.

The Adobe PDF format is used for all online handouts, permitting fast download time plus accessibility on both Windows and MAC platforms when using [Adobe Reader](#). Many portable media devices also permit PDF downloads, especially the Apple iPad.

PDF Online Handouts

Webclass provides

1. Workshop handouts available anytime, anywhere using any mobile device permitting PDF downloads.
