Printing *with* Netgear Genie

The screenshot shows an iPad interface. On the left, a '7 Notes' app is open, displaying a list of notes. The note titled 'Draining Battery...' is circled in red. On the right, a note titled 'Draining Battery Apps' is open, listing five items: 1. Skype, 2. Newsstand, 3. Music-playing apps, 4. External devices such as blue-tooth, and 5. Notifications. A red box highlights a 'Printer' selection menu that is overlaid on the note. The menu shows four printer options: 'Copy Room Office', 'Literacy Lab' (which is selected with a checkmark), 'Mrs. Martin Room', and 'Tippin - Computer Lab'. A red arrow points from the circled note title to the printer selection menu. The iPad status bar at the top shows 'iPad', signal strength, '3:35 PM', and 'Not Charging'.

Online Handouts

The screenshot shows the Webclass.org website interface. At the top, the logo "Webclass.org" is displayed in white on a dark teal background, with the tagline "web-based handouts and resources" to its right. Below the header is a navigation menu with links for "Home", "Keyboarding", "iPad Basics", "Digital Storytelling", "Podcasting", and "Webinars". A small "IE" icon is visible in the top right corner of the menu. The main content area is divided into two columns. The left column features a section titled "Why online handouts" with a paragraph explaining the benefits of online education and training. Below this is another paragraph discussing the Adobe PDF format and its accessibility. A small graphic with the text "PDF Online Handouts" is positioned to the right of the second paragraph. The right column contains a "PDF Handouts" section with a list of resources, each preceded by a checkbox. A red arrow points to the "PDF Handouts" header. The resources listed include "Comic Life", "Diacritical Marks", "EasyTech", "Eduphoria login", "Excel 2007", "iPad Basics", "LCD Projectors", "Mapping Printers", and "PowerPoint 2007".

Why online handouts

Education and training via the internet are growing rapidly. Easy accessibility from home or school makes Internet handouts a viable alternative to hardcopy handouts. These PDF handouts can be accessed any time and from anywhere using any type of Internet connection.

The Adobe PDF format is used for all online handouts, permitting fast download time plus accessibility on both Windows and MAC platforms when using [Adobe Reader](#). Many portable media devices also permit PDF downloads, especially the Apple iPad.

iPad Basics

When viewing these handouts in Safari on the iPad, tap anywhere on the home screen, and then tap the **Open in iBooks** button at upper-right to save the PDF handout file onto the book shelf in iBooks.

AirPlay Utilities

AirServer, Doceri, and Reflector software allow the iPad to be mirrored to any laptop within the same wireless network. With a projector connected to a laptop, teachers can utilize apps with students on the screen from anywhere within the classroom. [Reflector](#) - [AirServer](#) - [Doceri](#)

Printing with Netgear Genie

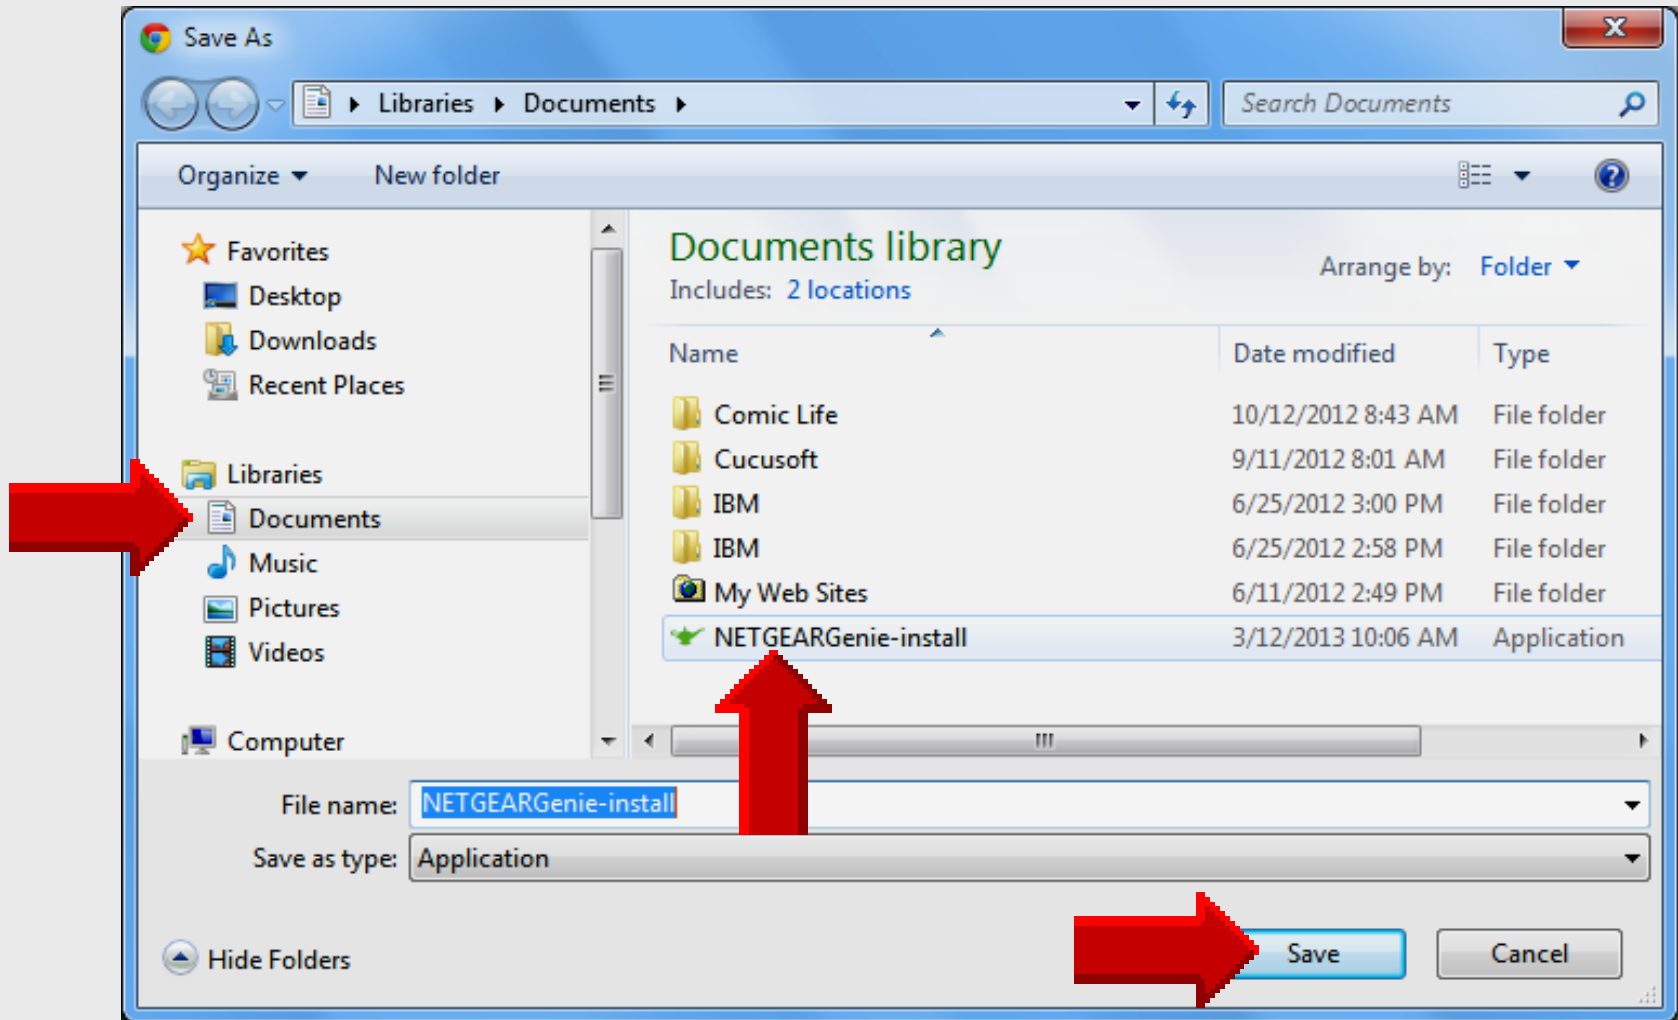

Most iPad apps require a printer to have AirPrint capability for printing. Netgear Genie bypasses that requirement by making **any printer** installed on your laptop AirPrint compatible. [Windows installer](#) - [MAC installer](#)

Select Windows installer

Install Netgear Genie

The screenshot shows the Webclass.org website interface. The header includes the logo and the tagline "web-based handouts and resources". A navigation menu contains links for Home, Keyboarding, iPad Basics, Digital Storytelling, Podcasting, and Webinars. The main content area is divided into sections: "iPad Basics" with instructions on saving PDFs to iBooks, "AirPlay Utilities" with links to Reflector, AirServer, and Doceri, and "Create Apple ID using an iPad or Create Apple ID using a Laptop" with a detailed explanation of Apple ID. A "Free Books" section is partially visible at the bottom. Overlaid on the bottom right is a Windows-style download dialog box with the text "Do you want to run or save NETGEARGenie-install.exe (15.6 MB) from webclass.org?". The dialog has buttons for "Run", "Save", and "Cancel". A red arrow points from a callout box containing the text "Select Run" to the "Run" button.

Select AirPrint

The screenshot displays the NETGEAR genie web interface for a wireless network named EPISD. The interface features a dark header with the NETGEAR genie logo and a language selection dropdown set to English. A sidebar on the left contains navigation buttons for Home, Internet, WiFi Connection, Router Settings, Network Map, Parental Controls, ReadySHARE, AirPrint, and Network Support. Two red arrows point to the AirPrint button and the 'Wireless Network: EPISD' text. The main content area consists of six status cards: Internet (STATUS GOOD), WiFi Connection (STATUS Connected), Router Settings (Click here), Network Map (Number of devices: 75), Parental Controls (Click here), and ReadySHARE (Click here). The bottom of the page includes a banner for the NETGEAR genie mobile app and a search bar for NETGEAR Support.

Select Printers

The screenshot shows the NETGEAR genie web interface. At the top left is the logo "NETGEAR genie" with a green genie icon. To the right of the logo are window control buttons (About, -, x) and a "Select Language" dropdown menu set to "English". Below the logo, it says "Wireless Network: EPISD". On the left side, there is a vertical menu with buttons for "Home", "Internet", "WiFi Connection", "Router Set", "Network Map", "Parental Controls", "ReadySHARE", "AirPrint" (highlighted in blue), and "Network Support". A red arrow points from the "AirPrint" button to the main content area. The main content area is titled "List of printers this computer can see:" and contains a list of printers with checkboxes. The printers listed are: Microsoft XPS Document Writer (unchecked), Office (checked), PDF Complete (unchecked), SMART Notebook Document Writer (unchecked), Tippin - Arrellano (checked), Tippin - Computer Lab (checked), Tippin - Copy Room (checked), and Tippin - Literacy (checked). A red box highlights the last four printers. To the right of the list is a "Refresh" button and a text box with instructions: "You can use NETGEAR genie to convert a regular printer to an AirPrint-capable printer. Then you can use AirPrint on your Apple iOS devices (iPad, iPhone, or iPod Touch) to print wirelessly. Step 1: Make sure that your computer can print to the printer. The printer can be connected to the computer using USB, or it can be connected to the router either wirelessly or using the router's USB port with NETGEAR ReadySHARE Printer support. Step 2: Select the printer. Your iPad, iPhone, or iPod Touch wirelessly connected to the router can now see this printer in its Print function."
